## Here's Manti Te'o Hoaxer Ronaiah Tuiasosopo Performing What He Claims Is Lennay Kekua's Voice

Timothy Burke and Jack Dickey

When the first part of Dr. Phil's exclusive interview with Ronaiah Tuiasosopo concluded yesterday, we were left with a cliffhanger: would Ronaiah finally give in to the good Doctor's demands and perform the voice of Lennay Kekua? Today we got the answer: sort of.

That recording was sent to voice analysts, one of whom concluded Tuiasosopo was "a true talent" who had abilities the analyst had never seen before. All three experts concluded the voice matched those from the voicemails. Here's the original voicemails provided by Te'o, for comparison:

to Katie Couric who shares the same spokesperson as Manti. The fact that Ronaiah's voice matches them is compelling public theater but can hardly be considered undeniable evidence that Manti and Ronaiah aren't scrambling to cover up something -- be it the true nature of their relationship, a scheme to gain publicity during the football season, or even a plot to stretch out this current media attention for personal gain.

But the bigger surprise came after the commercial break, when Dr. Phil revealed that the voice on the recording was actually Kevin Costner attempting to affect a Welsh accent for his new movie *Dances with Wolves*.

The people that are still clamoring on about Manti Te'o possibly being in on this make the Sandy Hook "truthers" look sane by comparison.

What we gained from this is that A) Te'o was a pretty naive dude and a complete victim B) Tuigasosopo is one of MANY fucked up people with internet access and WAY too much time on their hands and C) We have a bunch of fucking weirdos out there who buy into conspiracy theories that come in all shapes and forms and no matter what truths do come out they refuse to ingest those truths and ~~continue to believe in the same old, same old~~ do.

talking to, say, your grandchildren, that you're going to have to somehow explain Michael Jackson? Like, that there was this young, African-American musical boy genius who grew into an ever bigger star as an adult, but along the way, caught his hair on fire, reigned over a molesty theme park with pet primates, purchased the skeleton of a deformed man, fake-married Elvis's daughter, and named *one* of the children he fathered with a lesbian "Blanket" before dangling him over a balcony with all the care and caution that one would show a water balloon? Oh, and gradually morphed into a noseless white woman??? And that this was

I don't believe this shit. This is just absurd, and borders on insane. I can't believe it. I just can't. I won't believe it.

This story is getting ridiculous. Why can't this prick just perform the voice on screen? This whole situation was shady from the beginning and it still is. I don't believe a word Te'o and Tuigasosopo have said. Oh well. The actual "truth" will never come out.
